Objectives

Junior Full-Stack Developer and **Business Information Systems (BIS)** student with foundational experience in building web applications using **.NET Core (C#)** for backend services and **Angular** for responsive frontends. Familiar with RESTful APIs, SQL databases, clean architecture principles, and modern development tools. Problem-solving skills, a collaborative mindset, and a passion for learning new technologies. Eager to contribute to real-world projects while growing as a versatile developer in a supportive, innovative team.

Technical Skills

Languages: C++, Java, C#, Dart, JavaScript, PHP, Python, TypeScript

Web & UI: HTML, CSS, Bootstrap, Tailwind , Angular Material , Responsive and SEO optimization , Server Side rendering (Angular Universal)

Front-end & Back-end Framework: Angular(v20), Angular CLI , RxJS, Component-Based Architecture, ASP.NET Core (MVC, Web API, Razor Pages)

Architecture & Patterns: Clean Architecture, Onion, SOLID, Dependency Injection, Repository & Unit of Work, Middleware

Databases: SQL Server, MySQL, MongoDB

ORM & Data Access: EF Core, LINQ, Code First & DB First, Migrations & Seeding

APIs: RESTful APIs, JSON (System.Text.Json, Newtonsoft.Json), Swagger/OpenAPI, API Versioning

Authentication & Security: ASP.NET Identity, JWT, OAuth2, OpenID Connect, CORS Configuration , Role/Policy Authorization

Testing: Unit & Integration Testing(xUnit/NUnit, Moq) ,Swagger UI , Jasmine and Karma Test.

Advanced: Asynchronous Programming, Caching(Redis), Background Services, SignalR

Deployment / Hosting: Hostinger, CPanel, AWS, Azure , Huawei Cloud

Tools: Visual Studio, VS Code, VSCodium, Git, Postman, ApiDog, Logging (Serilog, NLog, Microsoft.Extensions.Logging)

Additional Skills

- Leadership, task coordination
- Problem-solving & analytical mindset
- Fast learner, excellent team collaborator
- English: B2 (Upper Intermediate)

Certifications

- **Udemy** – Data Analytics (Excel, Power BI)
 - **Codecademy** – SQL Fundamentals
 - **Rowad Masr** – .NET, Innovation & Tech Leadership
 - **ITI** – .NET & Data Structures/Algorithms
 - **FreeCodeCamp** – Node.js Backend Development
-

Projects

- **GrowGreen E-Commerce Backend** : Designed and implemented a secure ASP.NET Core MVC with user authentication, role-based authorization, product & cart management using .NET Identity, Domain-Driven Design (DDD), AutoMapper, and Dependency Injection (DI). [visit](#)
 - **Bookstore E-Commerce Application** : *Full-stack project implementing an online bookstore with advanced search, cart management, and server-side rendering for SEO using Angular 20, TypeScript, .NET Core 8, Entity Framework Core, SQL Server, RxJS, Angular SSR, PWA, Clean Architecture, AutoMapper, Swagger, SEO Optimization, Responsive Design , xUnit, Jasmine test and Karma Test(80% test coverage).* [visit](#)
 - **Security Application**: Implemented a C# security system using .NET's native cryptography libraries, applying RSA for asymmetric encryption and DES for symmetric data protection and reducing vulnerabilities by 70% . [visit](#)
 - **ZenzoneHub (Graduation Project)**: Developed a digital platform for booking coworking spaces, enabling users to discover, reserve, and pay for flexible workspaces online. Built on WordPress with a custom PHP backend and a responsive frontend (HTML/CSS/JavaScript), the platform features interactive maps for location browsing and integrates the **Kashier** payment gateway for secure, real-time transactions. [visit](#)
 - **Gym Management System**: Developed a comprehensive Gym Management System as a Java-based desktop application utilizing Swing for the user interface and MS Access for database management with JDBC. The system efficiently handles member registrations, course allocations, and coach assignments through structured database operations. [visit](#)
-

Volunteer Experience

GDSC – Assiut University | Oct 2024

- Organized 3+ technical workshops on web , mobile and Cybersecurity.
 - Collaborated with team members to organize DevFest and Google Hackathon.
-

Education

BSc in Business Information Systems

Assiut University, Egypt | 2021 – 2025 | **Excellent**

Achievements

- Qualified for ECPC 2024 (Egyptian Collegiate Programming Contest)
- Solved **200+ problems** across Codeforces and LeetCode, including **140+ beginner** , **50+ intermediate** and **10+ advanced-level** challenges, strengthening problem-solving.
- Participated in GDSC Hackathon & Solution Challenge – built mobile prototype with team
- Athar Competition Winner – secured **50,000 EGP** funding for startup project (Zenzone)
